

### Short description

The SGA 45 probe adapter is used to position the conducted probes at 45° in order to tilt the probes for measurements. Magnets, that allow for adhesion and fixation on the GND 25 ground plane, are embedded into the bottom of the probe head holder.

### Technical parameters

|                   |                    |
|-------------------|--------------------|
|                   | 45°                |
| Weight            | 500 g              |
| Sizes (L x W x H) | (111 x 46 x 60) mm |

### Application
