

HV FI-SHV 1 m

High-Voltage Cable Fischer-SHV

Short description

High voltage cable HV FI-SHV 1 m is a coaxial cable. It is assembled with a SHV and a S103A023 Fischer connector. It is suitable for burst pulses according to IEC 61000-4-4 for voltages up to 4.4 kV. Other configurations with other parameters are available on request.

Technical parameters

Connector	Fischer S103A023, male, connector plug
Connector	SHV, male, plug
Chracteristic impedance	50 Ω
Sizes (L x W x H)	1,20 m
