TS 250-100n

Probe Tip 100 nF

Short description

The TS 250-100n probe tip is an interchangeable coupling capacitor for the P250 EFT coupling probe and allows a high flexibility for disturbance coupling into IC pins. The probe tip is inserted into the front opening of the P250 probe.

Technical parameters

Coupling capacity	100 nF
Pulse parameter	
Voltage	± 500 V
