

To our customers, suppliers and partners

Bannewitz, 2020-04-21

Langer EMV-Technik GmbH - Information regarding COVID-19

Dear Ladies and Gentlemen,

We are aware of our responsibility towards our customers, partners and suppliers and act decisively to meet all challenges.

The following goals are important to us:

- We support the measures to reduce the spread of COVID-19 by maintaining our business contacts mainly by telephone and video conference. If necessary, as for EMC consultations, personal contact is organized under the specified hygiene guidelines.
- We produce the EMC measurement technology you need in the usual high quality. Our suppliers may experience delays in delivery due to the current situation. We already take this into account when you place your order when indicating the delivery time. Thank you for your understanding in case of possible delivery delays.
- In order to ensure the health of our employees and the people in our shared environment, we maintain the specified safety distances between each other and do not take business trips.

We take the following measures:

- Our employees are regularly informed about the current situation and the necessary hygiene and conduct rules.
- Due to changing office presence we are still available during our core working hours from 9 a.m. to 4 p.m. Outside these times, send an e-mail to your contact person at our company - he/she will call you back immediately.
- We pay attention to a safe execution of our consulting and seminar activities. We attach great importance to special compliance with the hygiene rules, e.g. through small group sizes.

Trade fairs such as EMV 2020 in Cologne were cancelled or postponed due to COVID-19. Of course we will, as far as possible, use the alternative dates set up by the organizers.

Please inform yourself on our homepage: www.langer-emv.com

Kind regards and stay healthy!

Gunter Langer
Executive Director
Langer EMV-Technik GmbH
